Address:

Batna, Algeria

PROFESSIONAL SUMMARY

Passionate and adaptable Full-Stack Developer with a proven track record of building robust web applications and delivering high-quality freelance projects. Adept at leveraging cutting-edge AI tools to accelerate development workflows, solve complex programming challenges, and optimize code efficiency. Highly skilled in frontend technologies like React, HTML, and CSS, alongside strong backend and database management capabilities. A fast learner with a keen eye for modern UI/UX design, exceptional problem-solving skills, and a demonstrated ability to effectively communicate with clients to turn ideas into successful commercial products.

EDUCATION

Bachelor's Degree in Computer Science | 2023 - 2026

Si El Haoues University, Barika, Algeria

- Specialization: Information Systems (SI)
- Relevant Coursework: Database Management Systems (DBMS), Software Engineering, Web Development, Object-Oriented Programming, Data Structures & Algorithms, Information Systems Design

PROJECTS & FREELANCE DESIGN EXPERIENCE

Educational Web Platform (UI/UX & Frontend) | 2026

Personal & Graduation Project Framework

- Designed a comprehensive and modern educational technology platform from scratch, focusing on seamless onboarding interfaces for high school students.
- Created high-fidelity vector logos, custom app icons, and interactive prototypes using Figma to ensure an engaging user experience.
- Developed responsive frontend layouts using React, Next.js, and Tailwind CSS, integrated with Supabase for backend services and secure user authentication.

Freelance UI/UX & Web Design Portfolio | 2024 - Present

Independent Designer & Developer

- Crafted multiple high-converting landing pages and responsive website concepts, ensuring visually stunning and modern UI aesthetics tailored to potential business clients.
- Utilized cutting-edge AI tools to accelerate workflows, quickly generate visual assets, and solve programming or styling bottlenecks during development.
- Designed and structured complete online administration dashboards and custom developer portfolios using Vite and Supabase schemas.

KEY TECHNICAL COMPETENCIES

- Full-Stack Web Development (Frontend & Backend)
- UI/UX Mobile & Web Design (Figma, Vector Assets)
- Component-Based Architecture (React, Next.js, Vite)
- Modern Styling Frameworks (Tailwind CSS, Advanced Layouts)
- Database & Backend Management (Supabase, API Integration)
- AI-Assisted Software Development & Workflow Optimization
- Agile Problem Solving & Fast Technology Adaptability
- Client Communication & Freelance Project Planning

CERTIFICATIONS

- Google UX Design Professional Certificate | Google (Coursera)
- HP IT Certification | HP Life / HP Professional Education
- Bachelor's Degree in Computer Science (Information Systems) | Si El Haoues University

KEY PROJECT HIGHLIGHTS

- Successfully designed and developed a comprehensive educational technology platform structure tailored for high school ecosystems.
- Created high-fidelity user onboarding experiences and application wireframes, accelerating UI/UX workflow efficiency through AI-assisted asset generation.
- Structured complex administrative command centers and custom backend schemas utilizing modern tech stacks like Vite and Supabase.
- Maintained high design standards by producing modular, scalable code and delivering seamless integration of interactive vector assets.
